ITRIX 26

TESTING THE LIMITS

CEG

The College of Engineering, Guindy consistently ranks among the top ten colleges of India. Established in the year 1794, CEG has an inexorable tradition of grooming the brightest minds of the nation into smart engineers and executives who can think on their feet.

WHAT IS ISTA ?

The **Information Science and Technology Association (ISTA)** is the official student body of the IST Department. We bring together students who are passionate about technology, innovation, and problem-solving, while creating strong connections with faculty and industries. ISTA acts as a bridge between academia and the corporate world, ensuring students are future-ready and industry relevant.

ABOUT ITRIX

Held every year in the month of March, ITRIX is ISTA's premium intercollege symposium at the Department of Information Science and Technology, College of Engineering, Guindy.

With a footfall of nearly 3000 odd participants every year, we play our part in striving hard to bring all minds, from every nook and corner of the country under one roof to compete and succeed at a variety of technical and nontechnical events.

The banner for ITRIX 25 is a dark blue rectangle with white and light blue text and logos. At the top left is the College of Engineering Guindy logo. To its right is the text 'DEPARTMENT OF INFORMATION SCIENCE AND TECHNOLOGY' and 'COLLEGE OF ENGINEERING GUINDY'. Further right is the ISTA logo and 'INFORMATION SCIENCE & TECHNOLOGY ASSOCIATION'. Below the department name, it says 'TITLE SPONSOR' followed by the ZOHO logo. In the center is the ITRIX 25 logo with 'TESTING THE LIMITS' and 'MARCH 21,22,23'. To the right is 'INTERN PARTNER' followed by the Kuriyam logo. The bottom section is divided into four white boxes: 'WORKSHOPS' (listing ZOHO Creator, Catalyst by ZOHO, AI Frontiers: LLMs and RAG by IBM, Hands-on IOT and EDGE COMPUTING), 'TECHNICAL EVENTS' (listing IgniteX: New Beginnings - ACM, LUCKLOOP SHOWDOWN, INVERSE CODING, AI ARENA), 'TECHNICAL EVENTS' (listing Joker's Gamble - CSAU, WEBTECHXPO SEQUEL, TECHODU VILAIYADU), and 'NON TECHNICAL EVENTS' (listing THE GREAT ESCAPE, TREASURE HUNT, ENIGMA, KRYPTICS, FANDOM QUIZ, CRICKET AUCTION). At the bottom are social media handles: @ista_ceg, #being_unITed, and in ISTA CEG.

 ISTA CEG

ALUMNI HOMECOMING

The inauguration day will feature a grand alumni meet, bringing together graduates from the class of 2012 to the current first-year students. This gathering offers a unique opportunity for alumni across different batches to reconnect, share experiences, and engage with the newest members of the community. It's a celebration of the rich history and continued growth of our institution, fostering a sense of unity and pride among all attendees.

HACK IT - HACKATHON

A high-energy 24-hour coding marathon that brings together brilliant minds to innovate, collaborate, and create impactful tech solutions. Participants work in teams to build prototypes from scratch under exciting themes like AI & ML, FinTech & Blockchain, Health Tech, Sustainability, and Cybersecurity.

Round 1 (Online): Teams submit their innovative ideas and project proposals online, showcasing creativity, feasibility, and problem-solving skills. The best entries are shortlisted for the next stage.

Round 2 (Offline): The shortlisted teams participate in an intense 24-hour hackathon, developing their concepts into working prototypes with mentor guidance and real-time challenges.

Final Round: Finalists present their completed projects to an expert panel, where the most innovative, practical, and technically strong solutions are recognized and awarded.

LAST YEAR'S NUMBERS:

HACK IT' 25

12 hours of hacking

25k Prize pool

130+ teams from across Tamilnadu

500+ participants

GOALS FOR THIS YEAR:

HACK IT' 26

24 hours of hacking

1 Lakh Prize pool

300+ teams from all over India

1200+ participants

*Bigger and better this time.
Be a part of something phenomenal!*

WORKSHOPS

PAST WORKSHOPS:

ZOHO CREATOR AND CATALYST

A hands-on workshop conducted on 22nd March 2025, introduced participants to building AI-powered applications using Zoho Creator and Zoho Catalyst platforms. With 71 enthusiastic participants, the session provided practical guidance on leveraging Zoho's tools for app development, automation, and AI integration, empowering students to create smart, scalable solutions.

AI FRONTIERS

An exclusive workshop held on 22nd March 2025, focused on exploring how Data and Artificial Intelligence can transform businesses. With 29 active participants, the session offered valuable industry insights, highlighted the AI revolution, and shared strategies for harnessing AI to drive innovation and growth.

UPCOMING WORKSHOPS:

CYBER SECURITY AND DIGITAL DEFENSE

This workshop focuses on the essentials of cybersecurity and ethical hacking, offering hands-on experience in data protection, network security, and threat mitigation. Participants will learn practical techniques to safeguard digital systems and gain insights into the evolving landscape of cyber defense and digital forensics. It emphasizes real-world attack simulations and defense mechanisms, enhancing awareness of modern cyber threats.

QUANTUM COMPUTING: THE NEXT TECH FRONTIER

This workshop introduces participants to the fundamentals and real-world potential of Quantum Computing. It covers concepts such as quantum algorithms, qubits, and applications in AI, cryptography, and optimization, helping students understand how quantum technology is shaping the future of computing and innovation.

It also includes interactive demonstrations and case studies to simplify complex quantum principles. The session encourages innovation-driven learning, enabling participants to think beyond classical computing boundaries.

TECHNICAL EVENTS

INVERSE CODING

Inverse Coding puts participant's problem-solving skills to test. It requires analysis of input-output patterns and deduce underlying logic.

WEBTECHXPO

This event focuses on testing participants' knowledge and skills in web development. It includes MCQs to assess foundational understanding, as well as a challenge for participants to design a front-end UI and propose an overall architecture connecting the front-end and back-end based on their submitted ideas.

AI ARENA

AI Arena challenges participants in Machine Learning and NLP through a two-tier competition designed for both beginners and experts. With tasks revealed on the spot, participants must think quickly and innovate, demonstrating practical AI skills and problem-solving agility.

JOKER'S GAMBLE

This challenges coders to test their logic, strategy, and problem-solving skills across two intense rounds. With twists inspired by the unpredictability of a card game, participants must think fast, adapt, and make daring moves to outscore their rivals.

IGNITEX: NEW BEGINNINGS

Ignitex – New Beginnings is an engaging two-round event that sparks creativity, innovation, and critical thinking among participants. The first round tests analytical and conceptual skills through MCQs and product-based problem-solving questions. In the second round, teams showcase their ingenuity in a mini-ideathon, crafting and presenting innovative solutions with a touch of marketing flair.

LUCKLOOP SHOW DOWN

This thrilling survival event blends the excitement of chance with the power of knowledge, featuring challenges rooted in DSA, SQL, and Reverse Coding. With every round influenced by a stroke of luck and sharp problem-solving skills, participants must outlast their peers in a high-stakes test of both intellect and intuition.

SEQUEL

This engaging SQL challenge puts participants' database management skills to the test through a series of quizzes and intricate, story-driven SQL queries. The event combines technical depth with creative problem-solving, offering a unique and immersive way to showcase your command over SQL.

TECHODU VILAYADU

A word-based tech challenge that puts participants' knowledge to the test through a series of fun and fast-paced rounds inspired by Tamizh Oda Vilayadu. With a focus on technology-related terms, the event blends linguistic intuition with technical awareness, offering a lively and engaging way to showcase your tech vocabulary. This engaging SQL challenge puts participants' database management skills to the test through a series of quizzes and intricate, story-driven SQL queries. The event combines technical depth with creative problem-solving, offering a unique and immersive way to showcase your command over SQL.

PROJECT PRESENTATION

A project expo that invites participants to showcase their most innovative creations to a panel of judges. With a focus on impactful insights and practical applications, the event offers a platform to demonstrate creativity, technical expertise and real-world problem-solving.

NON TECHNICAL EVENTS

THE GREAT ESCAPE

An exhilarating escape-room style contest where teams crack puzzles, riddles, and challenges using wit, strategy, and teamwork. The objective is to decipher clues and escape the room in the shortest time.

TREASURE HUNT

In this Campus-wide Quest, teams will embark on an adventurous journey through the college, solving puzzles and following a series of clues to reach the hidden locations. Each clue will lead participants to a new spot within the campus, where they are required to unlock the next hint. This fast-paced treasure hunt tests participants' problem-solving skills, teamwork, and knowledge of the campus.

FANDOM QUIZ

This fun-filled trivia event challenges participants to put their fandom knowledge to the ultimate test. From iconic movies and binge-worthy shows to beloved books, each question dives deep into various worlds, making it the perfect event for pop culture enthusiasts ready to prove their passion.

KRYPTICS

This mind-bending puzzle event captivated participants with a series of riddles and cryptic challenges. Designed to test logical thinking and problem-solving skills, the event offered a thrilling experience that kept minds racing and curiosity alive till the very end.

ENIGMA

This ultimate brain-teasing event challenged participants to crack puzzles, solve mini-games, and put their wit to the test. Designed to subtly reveal insights about the department, the event blended fun with curiosity, engaging minds while offering a clever twist on learning through play.

TITLE SPONSOR

Recognized as “ [Company Name] presents ITRIX” across all platforms and materials.

Prime stall space in front of the department.

Dedicated promotional post on all social media platforms.

Branding on standees, goodies, banners, and others.

Exclusive talk session during the event.

Option to conduct a separate event.

Recruitment opportunity.

EVENT SPONSOR

Company name on all event posters.

Opportunity to conduct an event.

Recruitment access to event participants.

Access to event participant database.

Logo on event certificates .

ASSOCIATE SPONSOR

Recognized as Associate Sponsor in all ITRIX materials.

Stall space during the event.

Option to conduct a separate event.

Mention on all social media platforms.

Branding on banners and standees .

Talk session opportunity during the event.

WORKSHOP SPONSOR

Sponsorship acknowledgment on all workshop posters and certificates.

Recognition across all workshop promotions .

APPAREL SPONSOR

Logo on all ITRIX apparels and merchandise.

Mention on social media and event banners.

Marketing through coupon distribution to participants.

HACKATHON PLATINUM SPONSOR

Title sponsorship: "Hackathon powered by [Company Name]"

Full control over the hackathon theme (e.g., AI, FinTech, HealthTech, etc.)

Prominent logo on all hackathon materials – website, goodies, and certificates.

Company can use the hackathon to showcase or test their products, giving participants a chance to try out their tools, APIs, or technologies during the event.

Keynote speaking slot at the opening ceremony.

Access to top-performing participants for recruitment.

Dedicated booth and product showcase space.

Opportunity to mentor participating teams

Complete participant database provided.

Exclusive social media promotions .

HACKATHON GOLD SPONSOR

Logo featured on website, posters, certificates, and goodies.

Option to submit domain-related problem statements.

Speaking slot during technical or panel sessions.

Company can use the hackathon to showcase or test their products, giving participants a chance to try out their tools, APIs, or technologies during the event.

Option to provide mentors or judges .

Access to participant profiles for recruitment.

Booth space for demos and networking.

Social media promotions.

REFRESHMENT SPONSOR

Opportunity to promote and collect feedback on new products.

Social media promotion.

Dedicated promo video about the product on our platforms.

HACKATHON SILVER SPONSOR

Logo on event banners and website.

Mention during opening and closing ceremonies.

Social media promotions.

Company can use the hackathon to showcase or test their products, giving participants a chance to try out their tools, APIs, or technologies during the event.

Option to include company merchandise or materials in participant kits.

GIFT SPONSOR

Company name on all gifts and mementos.

Opportunity to distribute samples or promotional materials directly to participants.

FOOD SPONSOR

Logo on event materials, banners, and social media promotions related to refreshments.

Opportunity to distribute food samples or promotional materials to participants.
